## INTERNATIONAL MISSIONS TRIPS

One of Azusa Pacific University's Four Cornerstones is Service. Through the Office of Service and Discipleship on campus, students can learn and participate in the work God is doing locally, nationally, and internationally. Ultimately, APU values service because we believe that the good news of Jesus' love transforms every people group, culture, and condition. Through service, students get to engage in the great story of restoration and redemption that God is writing in the world.
